2730	1		10 & 15 SERIES Locking Grabber Handle
2062	2		10 SERIES Small Plastic Door Handle
2491	1		1" Mesh Retainer with Backing Plate
2494	1		2" Mesh Retainer with Backing Plate
2081	2		10 SERIES Black Adjustable Hinge

\*See page 18 for a complete order example.

Listed above are panels and various components to create doors.

1. If you are making a door, decide whether you are going to have a framed or unframed door.
2. Select your hinge type.
3. Select your panel type.
4. Select any accessories or parts required to operate your door efficiently. (i.e., panel gaskets, handles, latches, etc.)
5. Include any necessary drawings. (See drawing example below.)

As you will notice in the order above, selected panels require a cut to size service. You will need to list the cut to size service charges in the machining section on your order. Remember to look in Section 13, Machining Services, for panel machining options.

(See Page 392 for 7510 machining service)

### When ordering panels and door accessories, consider the following:

- Make sure you include your square footage per panel on the order.
- Include cut to size services and machining services on your order.
- Include any required drawings.
- If you need a custom panel, call us!
- Order mounting hardware when necessary.
