

Alucobond® Decorative Panels

- Silver painted .020" thick aluminum sheets separated by a thermoplastic core
- Use anywhere you want the look of a clear anodized aluminum panel without the high price or weight of a solid 1/4" panel
- Cut to size with part numbers 7150 or 7155
- See cut to size services on page 389
- Consult **80/20** for custom machining services, 3mm panels, and other color options

Material	Tradenames	Stock Sheet Size	Thickness	Lbs./Sq.Ft.	Part Number
